WEDNESDAY BOOSTERS' DAY

Everybody is Going Out to Root for Maysville

The management of the Maysville Club of the Ohio State League has named Wednesday, July 21st as boosters' day at the League Park when Maysville plays Charleston the second game of the opening series.

Two of our enterprising citizens have gone to a lot of trouble and have guaranteed a lot of money to get Maysville back into organized baseball and they have put her back with a team that stands a good show to finish close up to the top. They are certainly entitled to the enthusiastic support of every citizen of the town and have designated Wednesday as boosters' day so that the team can get the proper kind of a send off at the first series. The merchants of Maysville should recognize this day and close their business houses on Wednesday, July 21st, from 3 to 5 so that they and their employees can go out to the game and boost for the home team. It must be remembered that it is not alone to encourage those who have reestablished baseball that this is asked but the game will be well worth seeing and to maintain the team in the League means much to the city. Let's all get together and make this Wednesday a gala day. Let's close up just for an hour or so and go out to the game in crowds.

Nothing encourages a team so much as the enthusiastic support of a crowd of lusty rooters and remember that in doing this you are benefiting yourselves. A few hours in the fresh air will do you good; your employees will appreciate your thoughtfulness and return you better service the next day, and the more you root for and boost the team the better game they will give you and the more likely it will be that Maysville will remain in the league which certainly can not but benefit the town. Somebody came forward with the announcement that their place of business will close on Wednesday from 3 to 5. Who will be first. Just make the start and you will see how many will follow the good move which will result in a big crowd on boosters' day to root the club to victory and assure baseball as a permanent fixture in Maysville.

Miss Etta Bullock, of Georgetown, Ky., is visiting Mr. and Mrs. William E. Smith, of West Second street.

"SHE STOOPS TO CONQUER"

Splendidly Produced by Devereaux Players

On Monday night at Beechwood Park Clifford Devereaux and his excellent company of players produced under the auspices of the Woman's Club, Oliver Goldsmith's "She Stoops to Conquer," and never was this beautiful play better staged or more charmingly acted.

Every member of Mr. Devereaux's large company is an actor of no little talent and Monday night's performance was a real treat.

Miss Millicent McLaughlin was excellent as Mrs. Hardcastle. Few artists have interpreted this character with as thorough an understanding as did Miss McLaughlin and her performance entitles her to recognition among actresses of note.

Miss Mary Ward Holton, a Mason county young lady, was very good as Kate Hardcastle and her future in her chosen profession is assured. Mr. P. J. Kelly as Hardcastle showed considerable ability as did Mr. Lark Taylor as Sir Charles Marlow, and Mr. Clifford Devereaux as Tommy Lumpkin was simply splendid. Mr. Devereaux was Tommy Lumpkin. His portrayal of this character could not have been more natural and naturalness in acting is greatness. Mr. Devereaux is not only an artist himself but he has gathered a company each member of which is an artist with the result that their presentations are as near perfection as human skill can make them.

This company will be seen this afternoon and tonight in Shakespearean productions and judging from Monday night's performance it will be a great loss to those who do not see them.

The patronesses are Mrs. Elmer Downing, Mrs. George Longnecker, Mrs. Dr. Davis, of Mayslick, Mrs. A. M. J. Cochran and Mrs. Foster Barbour.

RECEPTION TO MISS HOLTON

After the performance tonight at Beechwood Park there will be an informal reception in honor of Miss Mary Ward Holton, the Mason County young lady who is a talented member of the Devereaux Company. Miss Holton and her father who is here also have a host of friends in this city who will no doubt take advantage of this opportunity to welcome them and to pay due respect to the talented artist.

GARDEN PARTY

The Woman's Guild of the Episcopal Church will give a garden party at the home of Mrs. John L. Whitaker on East Third street on Wednesday night July 21. Refreshments and games of all kinds. Plenty of entertainment for old and young. Come out and enjoy the cool breeze.

Messrs. Ed and Dudley Ball left yesterday for Farmville, S. C., where they will be in the tobacco warehouse business until December 1st.

All July bills now ready. All accounts due. Come in and pay and get tickets on the two BIG PRIZES—Touring car and Roadster. Both to be given away some time this winter.

"The Square Deal Man"

OFFICER SHOOTS NEGRO

Lively Shooting Scrape Near C. & O. Coal Docks Monday Afternoon—Officer Dudley Bloomhuff and Two Negroes Stage Pistol Battle—One Negro Shot and Later Dies From Wounds—Other Captured at Vanceburg.

Monday afternoon, about 4 o'clock, a long distance telephone call was received at Police Headquarters from the Cincinnati-Covington-Newport Police Departments asking the local officers to search the east bound freight trains for two negro men wanted by the Covington police for a crime they had committed in that city. Officers W. M. Tolle and Special Agent Thomas Stewart of the C. & O. started to the coal shuttles about a mile east of the city limits where they were to stop the train and search for the wanted men. While on their way to the coal shuttles they met Officer Dudley Bloomhuff, who accompanied them to the shuttles. Upon arriving at the coal shuttles they divided into two searching parties, Special Agent Stewart and Officer Tolle searching the front and middle sections of the train respectively, while Officer Bloomhuff went to the rear section of the train and started to search the cars. About ten or twelve cars from the caboose two negro men got off the train and one of them remarked, "Come on Tom let's go back," and started for the train on the west bound track. Officer Bloomhuff called to them to wait a minute and told them not to get on that train. The men did not pay much attention to this as they started to catch the west bound train, one of the men swearing, said, "We'll get on this train," and pulled his 44-caliber revolver from his holster and started to fire at Officer Bloomhuff. The other negro was between him and the man doing the firing and Bloomhuff, at the first of the fray, was unable to use his gun. In a few seconds however Bloomhuff opened fire and shot three times at the negro that started the shooting. Upon the first shot the negro fell to the ground with a wound in the ankle. As he fell he rolled over and resting his gun on his arm and trying to protect his stomach with his feet, he deliberately fired several shots at the officer. Bloomhuff fired two more shots, one of which took effect in his hip and the other entered his abdomen. At this time the negro who was standing behind the one that was doing the main part of the shooting, opened fire at the officer who returned it, using up his last bullet. While Bloomhuff was shooting at the second negro the one who was lying on the ground staggered to his feet and ran into the lane leading to the Mason County Infirmary. Bloomhuff at this time was undecided whether to pursue the second or the first negro and while deciding what to do the second negro ran through the corn field, near the scene of the shooting, and making his way to the front of the train which at this time was moving eastward again, boarded it. Bloomhuff at this time was completely unnerved, and he had ever reason to be, as the coal car that he was standing near was spotted with marks of where the negroes' bullets had hit, making a complete arch about him. While Mr. Bloomhuff received but a slight scratch from a bullet on his right wrist, which did not break the skin, his coat had a hole through it showing what a narrow escape he had. Special Agent Stewart and Officer Tolle found the wounded negro in the lane nearby suffering terribly from loss of blood. Near him was a holster and several bullets of the 44-caliber, a nickel and some other trinkets, but his gun was missing, the presumption is that he either threw it into the weeds, or the second negro robbed him when he passed him in making his escape. Special Agent Stewart questioned the injured negro who gave his name as Jerry Lewis, of Augusta, Ga., and told the officers that the name of the escaped negro was John Braxton, of Mulberry, Ohio. Lewis denied emphatically that he ever had a gun and said he did not fire at Bloomhuff. He showed the empty holster to the officers as his proof, but this statement is not given much credit as he could not explain where he got the holster and why he had it and the bullets on his person. He was removed to the Hayswood Hospital where Dr. A. O. Taylor operated upon him in an effort to save his life. The operation showed that a large and small intestine had been punctured six times by the bullet that plowed through his abdomen, while the shot that entered the hip had glanced off the hip bone and made its exit through the thigh. The wound in the ankle was very slight. Before being placed on the operating table the negro again denied all knowledge of the affair, but did not give any account of how it happened. He rallied from the operation but shortly sank and at 12:40 this morning passed away, his lips still sealed on any question pertaining to the shooting.

Chief of Police James Mackey notified the Vanceburg and other up the river authorities of the affair and asked them to search the train. Late last evening a report came from Vanceburg that a negro had been run into the river after a pistol battle with a posse of citizens of that city. Chief Mackey and Special Agent Stewart, went to the scene and as yet have not returned. Since they left it has been rumored that the negro escaped from the Lewis county officials, and is again at large, but definite account of the matter can not be obtained until the officers return, which will be some time today.

Officer Bloomhuff was suspended by Chief of Police Mackey until an investigation of the case is held. No doubt this will result in exonerating the officer as it seems that he was protecting his own life when he fired the shots that had such telling effect on the negro.

SECOND STREET FROM BRIDGE TO COMMERCE TO BE OILED

Mr. C. C. Dobyns has by subscription from the property holders and those interested, made up a sum sufficient to oil Second street from Bridge to Commerce and when the work is done the giddy motorist need not choke in his own dust and humble householder will get a breathing spell.

Mr. Dobyns is to be congratulated upon accomplishing this much needed relief and those who live along the street or who must use it in passing will appreciate his action.

Hon. W. H. Rice and wife, of the county, who have been spending a few days at Vanceburg, have returned.

A GREAT REDUCTION

In going over our stock we find that we are OVERLOADED, and have decided to REDUCE STOCK, and it goes at cost.

This space will not permit us to list it all. One great bargain is 100,000 feet of an EXCELLENT GRADE OF OAK SIDING. This goes at \$2 PER HUNDRED. All other yard stock greatly reduced.

Don't miss this opportunity to get what you want in lumber and building material at the lowest prices ever known in Maysville. Terms at this reduced price are CASH.

AUTO PARTY

Mr. John T. Stiles, G. W. McIntire and wife, Mrs. Lucy Galbraith and son of Germantown, were guests of their niece, Mrs. J. L. McDowell, Saturday. From here they will motor through Bourbon, Fayette and Scott counties this week, visiting relatives and friends.

Col. William Parker, aged 94, Mason county's oldest citizen, was in this city Monday shaking hands with his host of friends.

FORMER MAYSVILLE MAN SHOT

Word was received here Monday that Mr. Omar Fizer, son of Patrolman Dudley Fizer, was wounded at his home in Chicago, Sunday. From the report it seems that Mr. Fizer was playing with a shotgun and the weapon went off, the shot lodging in his leg and foot. The many friends in Maysville of Mr. Fizer wish him a speedy recovery.

Mr. Paul Cullen, of this city, is in Central Kentucky this week.

THE GERMAN SUBMARINE.

The present war has not, as so many thoughtless persons seem to think, made a cipher of the dreadnought. On the contrary, it has demonstrated that the basis of sea power lies in the big, swift, heavily armed ship.

The fact that Great Britain dominates the seas, that the German flag floats nowhere upon them and the Kaiser's great battleships lie snugly in the Kiel canal is due solely to British preponderance in dreadnoughts and battle cruisers.

But the recent remarkable exploit of the German submarine U-51, which, journeying for a month from Wilhelmshaven, was able to sink two British battleships near the entrance to the Dardanelles before she proceeded through the straits to Constantinople shows how vital is the newest factor in naval warfare.

The distance from the German base to the Bosphorus is not more than the distance between England and the United States and Capt. Hersin's exploit pretty completely disposes of the theory that, owing to our isolation, we should be immune to attack from undersea boats if we happened to go to war.

It might be argued that, without a supply base, belligerent submarines from Europe could not be effectively used against this country. But Germany has so clearly located supply bases in the British Isles that it would not do to count too confidently on this advantage when it is considered how vast is the Atlantic coastline and how many nooks and corners there are into which these rattle-sarks of the sea might slip.

One of the lessons of the war which the United States must profit by is the need of a large fleet of submarines of the most modern type and the large est capacity. Posted in adequate numbers on both our coasts these undersea boats would make it almost impossible for a foreign fleet of warships and transports to approach our shores. Merely through the possession of her submarines Germany has forced England to give the German coast a wide berth. No British warships ventures near them.

With like protection every American seaport could be rendered absolutely safe against attack and no foreign foe could ever put foot on American soil.

When knives and forks for which you can find no possible use are placed beside your plate at a bride's dinner party do not inquire what they are for. Remember, that one must show one's wedding presents somehow.

Just let a man sit down to read and the women of the house can find a hundred things to do with the broom and the dusting brush right around the place that he occupies.

Did you ever notice that before a man buys a pipe he always puts it in his mouth and steps to a glass to see how he looks? Neither sex has a monopoly on vanity.

If the President feels the need of aid in keeping the one-term pledge, he can find plenty of help among the millions of men who are out of other useful occupation.

A political leader is one who sees which way the crowd is going and then cuts across lots and gets ahead of the procession.

The man who is a bright and shining light at a stag dinner is apt to be a dark cloud around the house next morning.

It is perfectly proper for a man to pay devoted attention to a married lady—provided she happens to be his wife.

Shown Up.

Senator La Follette was talking about the dodges and squirms of a certain corrupt railroad official. "For all his dodges and squirms," said the Senator, "the man was well shown up. It's like the case of Smith."

"A collector entered Smith's flat, pushed into the parlor, and said to Smith's little son:

"Where's your father?"

"Gone away," the urchin answered, according to orders.

"Gone away? Humph. Where to?"

"That closet there," was the reply.—Washington Herald.

The Lawyer Quit.

An elderly negro was run over by a wagon. A sympathetic attorney rushed to the hospital and offered to handle the case on a contingent fee.

"Go 'way from me, white man," said the old darkey feebly.

"But I want to help you," said the lawyer.

The old man showed a gleam of interest.

"Do you?" he said.

The lawyer nodded.

"Den," said the victim, "you go out an' find de man dat run into me and bus' his haid wide open."

GOOD HOUSEKEEPING IS THE ROAD TO ECONOMY.

HOW TO COOK SQUABS.

There are many ways to prepare squabs for the table, but the ordinary cook will be satisfied with four: squab broiled, squab stuffed and roasted, squab en casserole and squab with vegetables, or printaniere style, as bills of fare have it. These delicacies need few additions to be almost perfect eating.

1. For broiled squabs, dress the birds and place the hearts and livers to one side. Crush the breast bones with the flat side of a meat cleaver and brush over with cooking oil or unsalted butter. Broil quickly. They should brown evenly on both sides and may need to be basted while broiling. Place on very hot serving platter and garnish with mushrooms. Chop the giblets, adding a little chicken liver if necessary, and cook in melted butter and the liquid in the broiler pan. Pour this over the squabs and serve at once.

2. Stuffed squab. Fill the pigeon with a rich forcemeat seasoned with onion. Wrap in oiled paper and bake gently until done. Remove the paper and cover over with a heavy glaze and return to oven for five minutes. Dish the bird and garnish with buttered peas and bits of crisp brown bacon.

3. Prepare four squabs and cut each one into about four pieces. Put a few slices of bacon and two tablespoons of butter into a saucepan and when it hot brown the pigeon meat in it, then arrange the pieces nicely in a casserole with a layer of bacon beneath and on top. Season with pepper and parsley; you will not need salt, as the bacon furnishes that. Fill the casserole half full of rich stock slightly thickened with blended butter and flour. Cook twenty minutes in oven with lid on, then remove lid and let the bacon brown over the top. Serve in the baking dish.

4. Squab printaniere. Cut turnips and carrots into balls with a vegetable cutter and brown them as well as a few little onions in plenty of butter. Remove the vegetables and brown the trussed birds in the same butter. Remove the birds and braise shredded cabbage in the same utensil. Place the cabbage on a baking dish and put the birds on it and between them arrange the onions, carrots and turnips. Garnish this with crisp slices of bacon standing upright between the birds. Strain the liquid in the first saucepan and pour over all. Peas and carrots or potatoes and carrots or asparagus and peas may be used in place of the turnips and carrots.

BLOWN TO ATOMS WHEN BANDITS DYNAMITE MEXICAN TRAIN

Galveston, Texas, July 18.—The first train from Vera Cruz to Mexico City, dispatched from the seaport town Wednesday, was blown up near Apizaca and three cars loaded with soldiers were blown to atoms, 35 foreigners were killed and many other passengers were injured. This news was brought here today from Vera Cruz by travelers.

Not to be discouraged by the tragic fate of the train which was to have marked the reopening of communication with the isolated capital city and the consequent inauguration of a more peaceful era, a second train was dispatched on the following day, but this, too, met with disaster. Bandits, presumably members of the shattered Zapatista force which was driven from Mexico City by General Obregon, held up and robbed the train, subsequently cutting all lines of communication. Activities of the rebel bandits have become more pronounced all along the line of railroad.

The Zapata troops carried to the mountains a number of women and the post office employees aboard the train.

TRENCHES ARE CONVERTED INTO SEA OF FLAME

London, July 18.—With desperate energy and using burning liquids which converted the trench objectives into a sea of flame, the Germans are continuing their offensive on the heights of the Meuse and save the German lines of communication.

The French report tonight chronicles heavy losses inflicted on the attacking Germans during the day, following the recapture by the French of a section of the line occupied by the Germans on the ridge south of the Sonvaux ravine, on the sector between the Calonne trenches and Les Eparges. Here the only really notable infantry actions of the day took place.

On the remainder of the front, particularly in the region of Arras and near Souchaux, vigorous artillery engagements have been fought.

Thousands of persons welcomed the Liberty Bell upon its arrival at the Panama-Pacific Exposition. Champ Clark urged military preparedness in a speech at the installation of the historic relic in the Pennsylvania building.

Seventy-one passengers were rescued Saturday when the lake steamer Arizona went ashore near Little Traverse Bay, Mich.

Two deaths and fifteen prostrations were reported in New York due to the unusual heat and the high humidity.

MARRIED BY PROXY

Paris, July 18.—Gaston Pine, a Cavalry Quartermaster, now at the front, was married by proxy today to Eugenie Viellard. The ceremony was held at Corbel, and was performed by the Mayor. Paul Grizel acted as proxy for the absent bridegroom. The Minister of Justice has decided that the proxy marriage law of April does not apply to Frenchmen who are held prisoners of war in other countries.

SIGNS OF DANGER

That Should Be Heeded By Maysville People.

There's serious danger in neglecting any weakness of the kidneys. The warning that Nature gives should not be overlooked. If troubled by too frequent passage of the kidney secretions; burning or scalding; if the secretions are highly colored and contain sediment when left standing—if you have backache, too, with frequent headaches and dizziness, make up your mind that your kidneys are affected and begin using some reliable kidney remedy. Deaths from kidney disease have increased in the United States alone, 72 per cent in the last 20 years. The risk is too great—you can't afford to delay. Maysville people recommend Doan's Kidney Pills. Can you ask for better proof of merit than the statement of this Maysville resident?

W. F. Lynch, 127 West Third St., Maysville, says: "My kidneys were weak and the passages of the kidney secretions were scanty and painful. Having used Doan's Kidney Pills before, I again got a box and they quickly restored my kidneys to a normal condition."

Price 50¢, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Lynch had. Foster-Milburn Co., Props., Buffalo, N. Y.

RIOTS IN TURKEY

Result in Bloodshed, Refugees Say—Conditions Are Growing Worse

Naples, July 18.—A number of Turkish refugees, who arrived here today, stated that conditions are growing worse daily. The Young Turks have lost the support and sympathy of the population, they declared, and are trying to regain it by the announcement of the wonderful victories over the allies.

The price of commodities has become prohibitive and riots have taken place, resulting in bloodshed.

RAILWAY COMMUNICATION

Between Turkey and Bulgaria Definitely Suspended

London, July 19.—"A ministerial order was issued today," says the Times, Sofia, Bulgaria, correspondent, under date of last Thursday, "definitely suspending railway communication with Turkey. The step appears to have been taken in consequence of continued Turkish interference with traffic and may probably be regarded as marking the collapse of the negotiations for the concession to Bulgaria of the Dedaghat railway."

MIDDLEMAN TRANSFER CO. TRANSFER AND GENERAL HAULING.

We make a specialty of large contracts. Office and barn East Front Street. Phone 228.

HAIL! HAIL! HAIL!

We will write your tobacco hail insurance in the same old reliable company we have been placing you in for the past two years, the H-vary Clay, of Lexington, who have adjusted every loss we have ever had to the entire satisfaction of the insured. So why take a chance in trying out a new company when you know this one has never had a controversy over paying a loss? Is this not recommendation enough? Remember the cost for the season will be no more than it will cost you to insure, say ten days prior to the time to house the tobacco. When in town drop in and let us fix you up a policy.

Home Care of Consumption

HAVE you tuberculosis, and must you make your fight at home like this fellow? Then here is help for you.

THE STATE TUBERCULOSIS COMMISSION AT THE CAPITOL BUILDING, FRANKFORT, HAS PREPARED A BOOK ON THE HOME CARE OF CONSUMPTION WHICH IT WILL SEND ON REQUEST FREE TO ANY CONSUMPTIVE OR TO ANY PHYSICIAN OR HEALTH OFFICER IN THE STATE. THIS BOOK WILL NOT TAKE THE PLACE OF THE PHYSICIAN IN ANY CASE. IT IS INTENDED TO HELP THE DOCTOR AND THE PATIENT.

The book gives helpful suggestions about how to use fresh air; how to prepare attractive dishes for the patient; how to protect the family, so that the disease will not spread to others. Prominent physicians, nurses and social workers have written and approved the book. Any one who needs the book can secure a copy by writing the Commission at its office in Frankfort.

FRANK HAS FIGHTING CHANCE

To Recover From His Wound—Prison Inquiry Is In Sight

Milledgeville, Ga., July 18.—Leo M. Frank, whose throat was cut last night by Wm. Green, a convict, still is in danger, according to a statement issued tonight by the prison physician, who remarked, however, that the patient has a fighting chance.

It was learned today that the jugular vein was only slightly punctured by the knife.

Green is being held in solitary confinement, where he reiterated today his statement that he attacked Frank because he believed the latter should have been hanged for the murder of Mary Phagan. He also said that he had no confederates.

It was declared today that the only punishment which can be meted out to Green will be continued solitary confinement in the event Frank should live; otherwise, he may be tried for murder. Green is already serving a life sentence.

Flow of Blood Is Stopped
Frank lay in the Georgia State

Prison Hospital tonight. Physicians had succeeded in stopping the flow of blood from the jagged wound, made with a butcher knife.

An investigation of the attack probably will be conducted by the Georgia Prison Commission, the same body that refused to recommend that Frank's death sentence for the murder of Mary Phagan be commuted to life imprisonment. Reports from Atlanta were that Governor Harris intimated today he would start such an investigation to ascertain if Green acted entirely of his own volition.

Green said today when taken from solitary confinement long enough to be questioned that he planned the attack alone, and that no one knew what he intended to do. He was not communicative today, and gave as his only excuse that "he thought it should be done." He said, however, that he regretted his act.

TREATING IS BARRED

London, July 18.—Besides limiting the hours during which liquor may be sold in towns where the Government has taken over control of the sale of liquors, the Board of Control, appointed to deal with the munitions areas has ordered that there shall be no treating and has prohibited the giving of credit for liquor.

The sale of liquor in licensed houses is permitted only between the hours of noon and 2:30 p. m. and between 6 and 8 o'clock in the evening.

The penalty for contravention of the regulations is fixed at six months' imprisonment and a fine of \$500.

Petitions filed in the Court of Claims by seven New England railroads ask \$10,000,000 allowed to be due for carrying mail under the present system of weighing.

LITTLE IDEAS BRING BIG RESULTS.

SIR HENRY BESSEMER AND STEEL.

Probably no inventor of any period, by his own effort, has added so largely to the resources of the world, or effected so great a saving in the cost of production of a leading commodity, as did Sir Henry Bessemer by his method of steel making. Many inventions are to be placed to his credit, but he will be principally remembered for his steel process.

Bessemer was a born inventor. In his youthful days he occupied himself much with stamp and dies, and was at one time actually promoted the post of superintendent of stamps in England for an invention which the government had decided to adopt; and this arrangement might have been carried out had not Bessemer knocked the whole thing in the head by suddenly devising a scheme by which all the old organization could be utilized to the same purpose with but little change or expense.

He was destined to turn his attention to bigger things, and during the time of the Crimean War he invented a mode of firing elongated projectiles from a smooth-bore gun. The British government declined to have anything to do with the invention, so he tried the emperor of the French with it, and that monarch gave Bessemer a commission to make a number of experimental projectiles according to his plan. These were subsequently tried at Vincennes, under the direction of Commander Minie, who, while approving of the projectiles, said that something stronger than cast-iron would be required for the guns if they were to be of proper service.

This suggestion, casually thrown out, gave Bessemer the cue to experiment in metals for artillery purposes; and although at the time comparatively ignorant of metallurgical processes, he soon not only mastered the whole subject, but his works at St. Pancras advanced far beyond the scope of ordinary experiments. He succeeded within a year in greatly improving the quality of cast-iron, and made a small gun from his superior metal which he presented to Louis Napoleon.

But Bessemer was not yet satisfied, and resolved to go on with the refinement of iron in the fluid state until pure malleable iron or steel could be obtained. In 1856 Bessemer read a paper at the British Association meeting at Cheltenham on the manufacture of malleable iron and steel without fuel, which set the iron trade in a flutter of excitement. Within thirty days of his reading of that paper he received a sum of \$135,000 from leading ironmasters for licenses to use his invention, but so convinced was he of the ultimate value of his idea that he afterwards paid a considerably larger sum to have these licenses rescinded.

It must be confessed that the earlier results of the Bessemer process were disappointing, for the production was of an unsatisfactory quality. It was found that though silicon and carbon were effectively removed from the iron by the process, all large percentage of sulphur and phosphorus remained.

At this juncture a scientist suggested the addition of manganese to the contents of the converter as the means of remedying the defect, and this was acted upon with the most gratifying success. At last he had the delight of seeing produced by his furnace bars of good, bright, pure steel. In the market the value of steel of that quality was at that time from \$250 to \$300 per ton. It had cost him in the conversion about \$35 per ton.

This was indeed a revolution. He took some of the bars to the works of the Messrs. Galloway, at Manchester, and for two months it was given in the regular way, and the workmen had not the slightest notion that they were not using ordinary steel of the best quality.

Because the Sheffield steelmakers were unfavorable to its use unless they could obtain a monopoly of it, Bessemer established steel works of his own in the town, and he was soon in the market with his new metal, selling it at from \$50 to \$75 per ton below his rivals' price.

But the invention was of too great importance to be kept back, and not only did Bessemer's own concern flourish, but his invention was adopted in all the principal iron districts of the world.

A man who by his inventive genius and pluck done so much for the world at large is deserving of honor, and the dignity of knighthood which Queen Victoria conferred upon him was no more than his due.

Miss Frances Doon has been teaching school in Grassy Valley, Cal., for the past forty-two years.

SLAYS' LINES ARE BROKEN

London, July 18.—North and south the Germans have pierced the Russian front, according to dispatches from Berlin and Vienna tonight, and millions of soldiers under Von Hindenburg and millions under Von Mackensen are smashing forward to close the gap behind Warsaw and trap, crush and destroy the greater portion of the Russian armies.

On a front of more than 400 miles, in a campaign unparalleled in history for daring and startling maneuvers and the colossal number of men engaged, Teuton and Slav are at death grips.

No less than two thirds of the Germans under arms have been thrown into this Eastern battle, according to the estimates of military experts, while practically the entire strength of Austria-Hungary has been added to the Armageddon on which hangs the fate of nations.

Germany's Plans are Developing
The long maturing plans of Von Hindenburg, the Prussian military genius, which it has been predicted will startle the world, are in process of quick development.

Leading his own legions, he has split and broken the Russian front south of Przasnysz, and, hurling his legions forward on the heels of the rapidly retreating Slavs, has extended his advance until it approaches the banks of the Narew.

Von Hindenburg's first blow has struck southwest of Mawa, where, by a brilliant storming action, the army under General Gallwitz swept three successive Russian lines northeast and northwest of Przasnysz, and smashing through, pressed forward to the Dzielna Lipa River.

Staggered by the blow, the Russians wavered, fell back, evacuating Przasnysz, and retired upon an extended and long prepared line in the rear of Ciechanow and Krasnosielc.

Russians Compelled to Fall Back
Close on their heels the Germans began their storming tactics against this line Thursday, and, penetrating it on a front of more than four miles in the vicinity of Zielona, compelled the Russians to give up their positions and fall hastily back, pursued by strong forces, which are carrying the attack to the river lines.

Meanwhile, in the south the armies under Von Mackensen, which for the last two weeks have been shifting front and apparently inactive, began a massive movement against the Lublin-Cholm Railway in concert with Von Hindenburg's northern drive, and breaking the Russian front near Krasnystav, 34 miles south of Lublin, are sweeping in tremendous strength against the railroad upon which the Grand Duke depends for his supplies.

The German advance between the Pissa and Vistula threatens to crumple the Russian right flank. Von Mackensen's drive imperils the left and puts the Russians to a serious necessity of guarding their communication and supply lines.

Many Prisoners Left Behind
In their retreat in Northern Poland the Russians have left large numbers of prisoners and quantities of heavy ordnance in the hands of the Teutons.

Thousands of captives are reported by Berlin to have been taken by the army of General Von Gallwitz and the armies of General Von Schlitz, operating between the Pissa and Vistula, where, late Berlin reports state, the Russians are falling back hastily, despite the levies brought up to their support.

In the south Von Mackensen has taken more than 8,000 prisoners since breaking the Russian front south of Krasnystav. It is reported, his advance bringing him to that village. In consequence of their sweeping reverses on other fronts the Russians have begun a hasty retreat west of the Vistula the Austro-German armies piercing their front at Siemno and forcing them to evacuate all their positions between the Vistula and the Kielce-Radom Railways.

On the Bug, also, in the region of Sokal, the Austrians have driven the Russians from strong positions and are following up their advance.

RUSSIA'S PRISONERS

Captured in June, Include 1,141 Officers and 60,848 Men

Petrograd, July 18.—During the month of June 1,141 German and Austrian officers and 60,848 men arrived at Kiev as prisoners of war, according to a dispatch from that city. Of the men more than 10,000 were Germans.

SHE IS A WISE WOMAN.

Who recognizes in the tell-tale symptoms such as backache, headaches, dragging sensations, nervousness and irritability the true cause and relies on Lydia E. Pinkham's Vegetable Compound to restore her to a healthy normal condition. For forty years this root and herb remedy has been preeminently successful in controlling the diseases of women. Merit alone could have stood such a test of time.

VILLA SOLDIERS

Flee After Six-Hour Engagement—Bodies Fall Hundreds of Feet Over Cliff

Douglas, Ariz., July 18.—After a six-hour battle in Anavachni Pass, west of Agua Prieta, General Calles, Carranza commander in Sonora, was reported late today to have defeated decisively Villa troops under General Jose Maria Acosta.

The Calles force was said to number 3,000, while Acosta's was reported to be of similar proportions.

In a message received here by A. Garduna today, consul for Carranza, from General Calles at Lamorita, 20 miles west of Agua Prieta, the Villa troops were reported to be fleeing in all directions.

The message stated that the battle began at 6 o'clock this morning. The Villa forces strongly were entrenched in the pass, and for five hours held against cannon and rapid-fire guns.

Finally, as Calles' guns got the range, the Villa fighters began to thin out perceptibly. Many bodies fell hundreds of feet down steep cliffs.

After the Villa army began to show signs of defeat the Calles force advanced and hand-to-hand fighting resulted. Those who were not killed fled precipitately.

During the fighting 300 of Acosta's men deserted to Calles, according to the report, which estimated the Villa dead and wounded and captured at 1,000. Calles did not report his own casualties, though they were claimed to be relatively small by officials in Agua Prieta.

According to Garduna, General Calles intended to press forward to Cananea as soon as he received ammunition, which left Agua Prieta today.

Villa representatives here refused to admit defeat, saying that the battle still continued near Lamorita and that a large contingent of Yaqui Indians were making a flank attack.

CITIZENS

Of United States Have No Right on British Ships, Germans Say.

Washington, July 18.—President Wilson will return to Washington tomorrow morning at 8 o'clock and will be confronted with the consideration of three most important international questions. The reply to the German note on submarine warfare, the general note to Great Britain in maintenance of the rights of American and neutral commerce and the situation in Mexico.

All officials admit that the attempt to torpedo the Orduña has injected a dangerous new issue into the proposed reply of the President to Germany's note on the Lusitania.

Officials say that the facts already developed, showing that the Orduña was attacked without warning, if they are not successfully controverted, inevitably will force the President to assume a very grave attitude toward the whole German submarine war policy.

All the developments within the past week have indicated that the President was about to approach the reply to Germany in a most friendly spirit and with the desire to keep the already serious controversy within the domain of diplomacy.

May Face Double Storm

It is now hinted by officials that if it should be shown that the German submarines attempted to destroy the Orduña without challenge, or without the usual warning shot, Germany will have to face two Lusitania incidents instead of one.

The importance of a settlement of the facts is demonstrated by the action of the State Department in calling at once to Ambassador Page, at London, for the British official version and to Ambassador Gerard, at Berlin, for the report of the German Admiralty on the Orduña incident.

KAISER LOSES \$20,000,000

Paris, July 18.—A private letter from Berlin declares that the Kaiser's personal losses owing to the war are about \$20,000,000.

These are mainly due to the depreciation of stock in shipping and manufacturing concerns in which he is a large investor. The works of two great beer firms in Saxony and Bavaria, in which the Kaiser is one of the principal stockholders, are closed.

The Kings of Bavaria, Saxony and Wurtemberg and the Grand Duke of Baden, as well as other German Princes, also have lost heavily.

Residents of Jeffersontown, a Louisville suburb, adopted resolutions at a mass meeting petitioning the United States Powder Company to refrain from rebuilding any part of the plant which was wrecked by an explosion last week.

Amuel Gompers stated that he believed the Bridgeport strike to be the work of pro-German agitators who wished to prevent the shipment of arms abroad.

Correspondence

FLEMINGSBURG

Mrs. C. A. Tague is reported ill. Miss Mona Saunders is visiting friends at Wyoming.

Mrs. J. Greer Early is reported as getting along nicely. Dr. C. W. Aitkin left last week for a sojourn in Colorado.

Mrs. G. W. Davis is visiting relatives at Mt. Carmel this week. Rev. Tague and mother left last week for a vacation of a few weeks.

Miss Nancy Watts is spending the week with the Lee family at Tilton. Miss Indiana Vice will leave this week for Mt. Sterling to visit friends.

Miss Lora Ratliff is the guest of Miss Opal Hendrix on Peck's Ridge this week. Miss Georgia Watts has returned to her work at Lexington very much improved in health.

Mr. and Mrs. W. H. Barksdale and Mrs. Chas. Sutton, motored to Maysville Friday evening.

Misses Allie Lee Adams and Beulah Saunders will visit at the home of Mrs. T. H. Talbott in Ewing this week.

Miss Mittle Riggen Daugherty has returned from a delightful visit with her aunt, Mrs. Goodpastor, at Owingsville.

A very enthusiastic meeting of the Mothers' Club was held at the home of Mrs. James D. Dudley last Thursday afternoon.

Harry Wood and family and Miss Thelma Bell motored to Germantown Sunday for a day with Mrs. Mattie Bell Jones.

Johnson Kelly and family leave Tuesday for an extended stay at San Francisco and other points on the Pacific coast.

Mr. and Mrs. Louie Bower and children and Miss Fannie Jones and Mr. Harbeson of Maysville motored to High Bridge Sunday.

Miss Viola Kelly entertained about thirty of the younger set Friday evening. Dancing was the prominent feature of the evening's entertainment.

Miss Bessie Taylor returned to her home in Cincinnati Friday after a pleasant visit with Mrs. Chas. Sutton. Miss Ruth Sutton accompanied her home for a short visit.

Quite a crowd from here attended the Sunday School convention at Sherburne last Thursday and report a tremendous crowd, a good meeting, and a "feast of good things."

Born, to the wife of Carl O'Bannon, at the home of Mrs. George Foxworth, near Mt. Carmel, a son. Mr. and Mrs. O'Bannon have recently returned here from Claxton, Georgia.

"IVANGOROD"

Washington, D. C.—"Before the Austro-German advance, south of Warsaw, the powerful Russian fortress Ivangorod interposes itself, just about midway between the great manufacturing metropolis of the Poles and the north Galician frontier. This city is a stronghold of the first-class, and forms the center of a defensive line guarding the southern approach to the capital city of Russian Poland. Especially it is important as it stands upon the junction of railways from Warsaw south, one of which runs southeast to Lublin, and the other southwest to Kiev."

Chenoweth Drug Co., Inc. If your hair is falling out we know of no better remedy than

Rexall Hair Tonic
"95"
A preparation which we gladly recommend to you. 50c a bottle.

Tests in the laboratory of the Johns Hopkins University show that the glass we use in manufacturing tinted lenses eliminates 100% of the injurious ultra-violet and violet rays and 95% of the blue rays of light. These are the rays that are irritating and are said to cause some forms of cataract. If your eyes are exposed to bright light, better have a pair of our tinted lenses. They add to your comfort.

Do Not Grip

We have a pleasant laxative that will do just what you want it to do.
Rexall Orderlies
We sell thousands of them and we have never seen a better remedy for the bowels. Sold only by us, 10 cents.
Chenoweth Drug Co., Inc.

southwest to Kieze. The invading German armies are now reported to be pressing toward Lublin, and interest in the near future may center around the redoubtable fortress at Ivangorod." Thus begins a war primer issued today by the National Geographic Society, dealing with the Russian Przemysl, against which the conquerors of the lost Austrian Przemysl are striving. The statement continues:

"Ivangorod is 143 miles north-northwest of Przemysl, and more than sixty miles from the Austrian border. It is about sixty miles southeast of Warsaw. The city is situated at the confluence of the Wieprz with the Vistula, and its plan of fortification makes use of the Vistula river, which, there has become of sufficient size as to be navigable for larger boats. Nine permanent works are built along the right bank of the Vistula, and there are three upon the left bank. The country around this town is rolling, in places sharply uneven, and offers advantageous features for defense. Ivangorod, together with Brest-Litovsk, Novo-Georgievsk and Warsaw, forms the celebrated Polish 'quadrilateral,' the kernel of the Russian scheme for the defense of their frontier land, Russian Poland."

HELPLESS AS BABY

Down in Mind Unable to Work, and What Helped Her.

Summit Point, W. Va.—Mrs. Anna Belle Emey, of this place, says: "I suffered for 15 years with an awful pain in my right side, caused from womanly trouble, and doctored lots for it, but without success. I suffered so very much, that I became down in mind, and as helpless as a baby. I was in the worst kind of shape. Was unable to do any work."

I began taking Cardui, the woman's tonic, and got relief from the very first dose. By the time I had taken 12 bottles, my health was completely restored. I am now 48 years years old, but feel as good as I did when only 16.

Cardui certainly saved me from losing my mind, and I feel it my duty to speak in its favor. I wish I had some power over poor, suffering women, and could make them know the good it would do them."

If you suffer from any of the ailments peculiar to women, it will certainly be worth your while to give Cardui a trial. It has been helping weak women for more than 50 years, and will help you, too.

Try Cardui. Your druggist sells it.

Write to: Chattanooga Medicine Co., Ladies' Advisory Dept., Chattanooga, Tenn., for Special Instructions on your case and 64-page book, "Home Treatment for Women," in plain wrapper, N.C. 181

A Full Measure of Health

is the reward of those who live right and eat right.

And as fresh air, exercise, and good food are the principal factors, it is important that food be selected which contains the essential nutritive elements in well-balanced, easily digestible form.

In making the famous wheat and barley food,

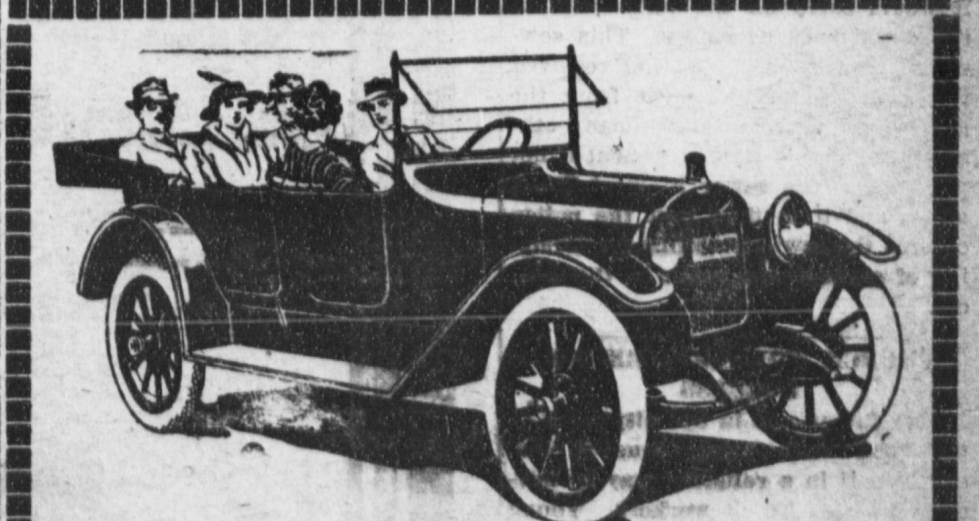

Grape-Nuts

the malting of the barley brings out the diastase (the digestive element) while the long 20-hour baking breaks down the starch cells of the grains. Thus Grape-Nuts does not tax the digestion, but actually assists in the assimilation of other foods.

For those seeking the fullest possible measure of health

"There's a Reason" for Grape-Nuts

—sold by Grocers everywhere.

Hupmobile
Car of the American Family

More room, more luxury, more power, more beauty. The latest engineering comfort refinements added to the old Hup quality and economy.

KIRK BROS., MAYSVILLE, KY.

Tropical Weight Suits

are the proper thing for the torrid season. We have them in Palm Beaches and light-weight Worsteds. Prices for Palm Beaches \$6.50 and \$7.50. Sport Shirts 50c, \$1 and \$1.50.

White and Champagne Lisle and Silk Socks 25c and 50c.

Anything you need for the hot summer days.

Geo. H. Frank & Co.
Maysville's Foremost Clothiers.

HERE AND THERE

If you have friends visiting you, or if you are going on a visit, please drop us a not. a that effect.

Miss Alice Carpenter, of Flemingsburg, was in this city Monday shopping.

Mr. and Mrs. E. M. Howe, of Elizaville, were in this city Monday on business.

Mrs. Charles McMack, of Moscow, Ohio, was in this city Monday on business.

Mrs. D. C. Bry of Cincinnati, is visiting her niece, Miss Margaret McIntire in Germantown.

Miss Agnes Hawkins, of Huntington, is the guest of Miss Augustus Boswell of Aberdeen.

Mr. W. W. Ball was at Burtonville yesterday in the interest of the M. E. Church South at that place.

Mr. and Mrs. Lynn Herndon and daughter, Lynn, of Louisville, are visiting Mrs. P. N. Bradford, of Aberdeen.

Miss Pauline Pollitt, of Forest avenue, left yesterday for a vacation with her aunt, Mrs. R. S. Pollitt, in the county.

Miss Norma Harrison has returned to Cincinnati after a two weeks' visit to her mother, Mrs. Ben Labree of Forest avenue.

Mrs. Metta G. O'Neill and Miss Nannie D. Rice of Lexington are pleasant guests of Mr. and Mrs. Thomas H. Rice of East Third street.

Mrs. J. W. Tolle and son, Morford, and her guest, Mrs. Elizabeth Thomas of Chicago left Monday for Ruggles Camp Grounds where they will spend a few weeks.

Mr. John B. Holton, of Indianapolis, is in the city this week to see the Devereaux Company play at Beechwood Park. His daughter, Miss Mary Ward Holton plays one of the roles.

WHY OUR SEWERS STOP UP

Many people wonder why the sewers are always in such a condition that a force of men is required to be constantly working in them. After taking a look at the work going on in East Third street where the big sewer that drains the hillside west of Market and extending to Short street, is being cleaned out, we have we think, discovered the reason for the overflow after every rain. Here are some of the things taken out of the sewer:

One 3-8 inch gas pipe about twenty feet long.

Hundreds of tin cans.

A beer keg.

Stone slabs, several of which are as large as a good sized door.

Riff raff amounting to about fifty cartloads.

With this extra load no sewer ever built in the city of Maysville could perform the duty of carrying off the water properly and if the residents of the area which is drained by this sewer would stop placing such obstacles as the above mentioned in the sewer it would carry off the water without the disastrous overflows. This sewer is not the only one that receives the same rough treatment from the general public. There are many others that get the same treatment if not worse than the sewer in West Third street and it is time that the police enforce the law prohibiting the dumping of garbage and ashes in the sewers.

CHURCH WORKERS MEETING SUCCESS

Very few people in this city know of the good work being done at the county jail in a religious way by several earnest church workers. Young people who have given up their time and talents to go to the jail on Sunday afternoons and take the gospel of Jesus Christ to people who had heard it nowhere else in so forceful manner. The result of these young people's labor are being manifest.

On Sunday, July 10th, there were five prisoners converted, and on Sunday, July 17th, eight more were converted, eight going into the First M. E. Church, South, and five into the Third Street M. E. Church.

These services have been held every Sunday afternoon for some time and will continue to be held.

POLICE COURT

Judge Whitaker had a lively day in his tribunal, the boys and girls who had a big time Saturday paid the addler. The following program was rendered:

Polly Ann Dryden, drunk and disorderly, \$6.50.

Judith Hughes, drunk and disorderly, \$6.50.

James Hinton, loitering, \$8.50.

The case against Joseph Marshall, who was arrested a few days ago on the charge of assault and battery for beating his wife unmercifully, will no doubt be dropped as the warring couple have made up again and the police have a note from Mrs. Marshall saying this is the last chance that she will give her husband. The next offense she says will be aired out in the divorce court.

SOMETHING NEW IN SPORTS

Dr. Allen Dodson, of this city, created quite a sensation Sunday by introducing something new in the way of water sports. The Doc has made a surf board which he ties to the rear of his speed boat, and rides upon it with the boat going at full speed. From the looks of the sport it must be very exciting, and the Doc got several duckings before he mastered the new stunt. It took well with the motor boat owners of this vicinity and several already have declared their intention of securing a surf board this summer.

BAPTIZING AT COUNTY JAIL SUNDAY

Rev. J. M. Literal, of the Third Street M. E. Church baptized two prisoners at the county jail Sunday. This brings the total baptisms in that institution in the last few months to ten, and several more are to follow in the near future. Rev. Literal was assisted by Brother James Dawson, who has made prison work a life study, and whose efforts have caused many to come back to the straight and narrow path.

COUNTY COURT

Wash Gee was appointed administrator of the estate of George Gee, deceased, with L. W. Browning as surety on bond. The deceased is the boy who was run over by a C. & O. freight train near Dover over a month ago. Legal proceedings are under way to secure damages from the railroad.

MAYSVILLE NEW TEAM PLAYS FIRST GAME TODAY

Maysville Fans Will Get a Chance to See the Team in Action this Afternoon—Large Crowd Expected

This afternoon the fans of this city will get the first glimpse of the team that is to be the representative of Maysville during the second half of the season in the Ohio State League. The ball tossers arrived on C. & O. train No. 5 this morning and are a fine husky looking bunch. While the team that will be Maysville's for the remainder of the year did not finish first, in the first half of the season, they were recognized as good ball players all over the circuit and only a poor start kept them from finishing at the top. As it was they finished a good fourth and but a few games behind the leaders. In the last few weeks they have been giving an exhibition of ball that drew a crowd wherever they played and as they are still going fine Manager Devore thinks that they have a fine chance to give the fans the rag at the end of the present season.

Manager Devore will probably call on Singleton or McGrennon to pitch while DeBerry will be at the receiving end of the line.

Steve Kane, former National and Bluegrass League umpire will handle the indicator, and as he has a nationwide reputation as a good umpire the game will be run right. Let all be there and boost.

HOUSE PARTY

Mrs. Sam Sterrett, of Tuckahoe Ridge, delightfully entertained Mrs. Lew Hildebrand and children of Cincinnati, Mrs. Mary Royce and son of this city and Mrs. Arthur Hay of Lexington, with a house party last week.

AUTO OWNERS WILL RECEIVE REBATE

Central Garage Will Refund Nearly \$3000.00 To the Ford Owners in This County

In accordance with their announcement a year ago that a refund would be given purchasers of 300,000 Ford cars were sold by August 1, 1915, the Ford Auto Co., of Detroit, are going to refund to owners of Ford cars purchased during this period nearly \$15,000,000. Mason county Ford owners will receive their share of this money, and the Central Garage, the local Ford agency, will distribute more than \$2,500, averaging about \$50 to each owner. More than forty Fords have been sold in this vicinity.

Mrs. Metta G. O'Neill and Miss Nannie D. Rice of Lexington and Mr. and Mrs. Thomas H. Rice of East Third street are visiting Mr. and Mrs. Ed Lalley at Mill Creek.

Miss Sallie Cummings leaves today for Mt. Sterling for a several days visit.

The World's Lowest Priced Knight Motored Car

THIS announces the greatest achievement in the history of the automobile business.

The Knight is the automobile motor that revolutionized the entire motor car industry of Europe.

The Daimler of England, the Panhard of France, the Mercedes of Germany, the Minerva of Belgium—in fact practically all of the costly European cars—are equipped with the famous Knight type motor.

And these are the motor cars that cost from \$4,000 to \$8,000 each!

Practically every loyal and titled family in Europe owns one or more Knight motored cars.

The Knight type motor is the nearest approach to 100% efficiency.

This motor differs from other motors in that where all others deteriorate with use, this improves; to all others carbon is harmful, here it is beneficial; size for size it has more power.

It has no noisy poppet valves; no noisy cams; no uncertain valve springs; no troublesome valves to grind; practically no wearing parts.

Specifications:

60-horsepower Knight motor; cylinders cast in block, 4 1/2" x 4 1/2"; 24 valves; High tension magneto ignition

114-inch wheelbase; Full-floating rear axle; Underdrag rear springs; 24" x 24" tires; non-skid rear

Detachable rim; one extra color; Royal blue with ivory striping; gray wheels; nickel and polished aluminum trimmings

Vacuum tank gasoline system; Electric starting and lighting system; Control buttons on steering column; Headlight dimmers

One-man mohair top; Rain-vision, ventilating type wind shield; Magnetic speedometer
